RUSH NUTRITION

MARKON 2026

Building India's First Fitness Social Layer

Community is the product. Nutrition is how we monetize belonging.

01 Segment & Positioning 02 Go-to-Market 03 Budget 04 Experiential & Metrics

Who Rush Is For — and the Layer It Must Own

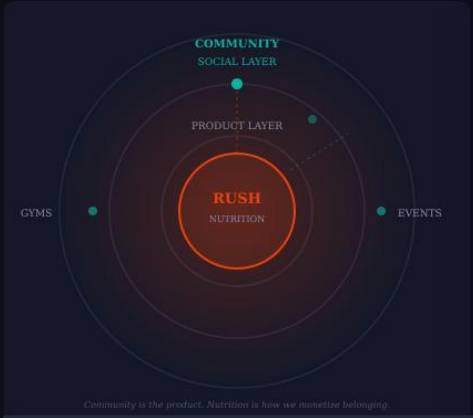
THE TARGET

Urban Indians 22-30
who organise social life around movement — pickleball courts, rooftop HIIT, community turf.

64%	51%	57%
fitness is social	attended event	pay for branded social
Ex. B	Ex. B	Ex. B

BRAND TENSION

Voice: inclusive everyday-active
Reality: 76% D2C / 63% female / only Delhi NCR (Ex. A)
Gap: Zero offline presence — awareness ceiling is structural



POSITIONING STATEMENT

*'For young urban Indians who move together — **Rush** is the* **fitness social layer** *that makes movement stick, because* **community is the product** *and nutrition is how you fuel belonging.'*

REASON TO BELIEVE + HOW IT SHOWS UP

PRODUCT No transformation claims · INR 15 electrolyte · 41% repeat already beats industry 35-40% (Ex. A, Ex. D)

OFFLINE Rush at courts + gyms — point-of-sweat not checkout; 0% offline presence today = highest leverage gap (case)

COMMUNITY "Rush Court Network" — co-owner of physical spaces; friend referral = 27% discovery already (Ex. B)

VS COMPETITORS: Legacy supplements = gym-only · Influencer D2C = low credibility · FMCG pivots = no authenticity · Rush = owns the **social layer none of them have (Exhibit C)**

12-18 Month Plan: Building the Social Infrastructure

01 COMMUNITY EVENTS INFRASTRUCTURE

INR 42L

- Recurring micro-socials: 50-100 pax, 2-3× per city per quarter (INR 2.5L-4L each, Ex. E)
- Co-host model with court operators — Rush provides product + brand, not venue cost; courts provide space
- 14+ events across 3 cities over 18 months; INR 3L per event midpoint is case-grounded (Ex. E)
- Signal: 57% willing to pay for branded fitness social · 51% attended event past 6 months (Ex. B)

02 MALE ACQUISITION — GYM CHANNEL

INR 24L

- Gym sampling: 20 gyms per city per month (INR 3L-5L, Ex. E); electrolyte sachets (INR 15/serve) as trial unit
- Targets Rush's structural gap: zero offline presence = zero point-of-effort conversion (case diagnosis)
- Male-majority gym selection specifically to shift 37% → 50% male share (board KPI, Ex. A)
- Electrolyte-first: lowest barrier trial, highest replay frequency, natural male fitness occasion

03 CITY ENTRY: BENGALURU + PUNE

City Strategy

- Bengaluru: unaided recall <3% (Ex. A) → enter via tournament sponsorship (INR 5L-8L, Ex. E) + 4 micro-socials + gym sampling
- Pune: unaided recall <3% (Ex. A) → enter via campus activations (INR 80K-1.5L, Ex. E) + 4 micro-socials + gym sampling
- Both cities: Q-commerce sponsored listings activated at launch (INR 1.5L-3L/month, Ex. E) for immediate conversion
- City selection is case-derived from Exhibit A awareness data — no external data assumed

04 DIGITAL-TO-PHYSICAL FLYWHEEL

INR 68L

- 5 micro-influencer waves, 10 creators each (INR 8L-12L per wave, Ex. E); Instagram = 47% primary discovery (Ex. B)
- WhatsApp city communities for friend referral activation — 27% secondary discovery channel (Ex. B)
- Pre-event hype → live UGC → product push loop; benchmark: Rush Rally = 1.8M views from 180 pax (case)
- Member-led chapter model (directional; no case cost range) flagged as Phase 2 test post-event community forms

INR 2.5 Crore — Deployed Across 10 Initiatives

INITIATIVE	INR L	SOURCE
Community Pickleball Socials — Delhi NCR (6 events × INR 3L)	18	Ex. E
Community Pickleball Socials — Bengaluru + Pune (8 events × INR 3L)	24	Ex. E
Tournament Sponsorships — Bengaluru + Pune (2 × INR 6L)	12	Ex. E
Gym Sampling Programme — 3 cities, 2 months each (6 runs × INR 4L)	24	Ex. E
Campus Activations — Pune (6 colleges × INR 1.2L)	7.2	Ex. E
Micro-Influencer Campaigns — 5 waves × 10 creators (5 × INR 10L)	50	Ex. E
Q-Commerce Sponsored Listings — 3 cities × 3 months (9 × INR 2L)	18	Ex. E
Outdoor Hoarding — Bengaluru + Pune launch (4 months × INR 5L)	20	Ex. E
Content Production + Community Chapter Pilot	30	Directional
Contingency / Tactical Reserve	46.8	—
TOTAL	**250**	✓ Within INR 2.5 Cr

Budget principles: Every cost within Exhibit E ranges · 2 directional lines explicitly flagged · INR 46.8L contingency retained

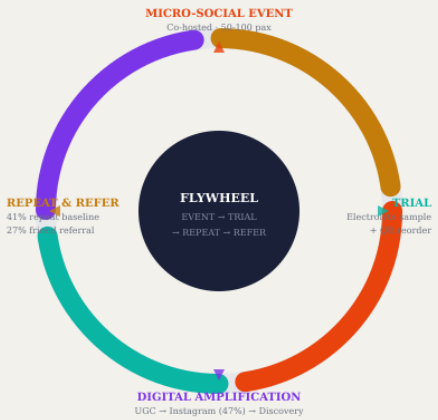
- Community Events **INR 54L** 21.6%
- Micro-Influencer **INR 50L** 20.0%
- City Entry **INR 45.2L** 18.1%
- Gym Sampling **INR 24L** 9.6%
- Content+Reserve **INR 76.8L** 30.7%

Costs within Exhibit E ranges. Content/Chapter Pilot and Contingency lines: data not available in case; recommendation based on directional logic.

Infrastructure, Not Events — and How We Measure It

RUSH RALLY — WHY IT FAILED COMMERCIALLY

- INR 5.8L ÷ 290 sign-ups = INR 2,000 CAC — 4× paid digital CAC (case)
- Single city, single event: structurally not repeatable or scalable
- 100% fixed cost borne by Rush — no venue cost-share model
- No product sampling: 180 attendees, zero physical Rush touchpoint
- 290 app sign-ups not tracked to first/repeat purchase (no Q-comm tie-in)
- No cohort: event vs non-event repeat rate never measured vs 41% baseline (Ex. A)



REDESIGNED: REPEATABLE MICRO-SOCIAL MODEL

- FORMAT: 50-100 pax co-hosted micro-socials (INR 2.5L-4L, Ex. E) vs 180-pax flagship
- FREQUENCY: 2-3 per city per quarter = 14+ events across 3 cities in 18 months
- COST SHARE: Court operators provide venue; Rush provides product + branding only
- PRODUCT LOOP: Electrolyte sachets at every event → Blinkit/Zepto QR reorder
- MALE ANGLE: Gym-adjacent events + mixed pickleball socials → 37% → 50% target
- COHORT TRACKING: Event-acquired repeat rate vs 41% non-event baseline (Ex. A)

MEASUREMENT FRAMEWORK — BEYOND CAC

COMMUNITY

- WhatsApp/app members per city — new tracked metric (currently near zero)
- Event repeat-attendee rate vs first-timers per city

BRAND

- Unaided recall BLR + Pune: <3% → ≥10% (vs Delhi 17%, Ex. A; directional target)
- Male customer share: 37% → 50% (board KPI, Ex. A)

DIGITAL

- UGC views per event vs Rush Rally benchmark: 1.8M from 180 pax (case)
- IG follower growth attributable to event-sourced content

RETENTION

- Event-cohort repeat rate vs 41% non-event baseline (Ex. A)
- Trial → first purchase conversion via QR at events (new funnel)

FY2026 SUCCESS: INR 28 Cr revenue · 50% male share · Unaided recall ≥10% BLR + Pune · ≥14 events across 3 cities · Repeat rate ≥41%

All Case Exhibits — Consolidated Reference

EXHIBIT A — RUSH BRAND METRICS (FY2024)

Annual Revenue	**INR 14.2 Cr**
Revenue Growth (YoY)	**68%**
D2C Revenue Share	**76%**
Avg. Order Value	**INR 1,980**
Repeat Purchase Rate (6M)	**41%**
Instagram Followers	**2,10,000**
YouTube Shorts Subscribers	**84,000**
Gender Split	**63% Female / 37% Male**
Primary Age Band	**20-27 years**
Unaided Recall Delhi NCR	**17%**
Unaided Recall BLR / Pune	**<3%**
Rush Rally CAC	**INR 2,000**

EXHIBIT B — CONSUMER PLUS SURVEY (n=600, Ages 18-30)

View fitness as social activity	**64%**
Attended community fitness event (6M)	**51%**
Aware of pickleball (metro cities)	**69%**
Have played pickleball at least once	**28%**
Willing to pay for branded fitness social	**57%**
Discovered brand at live event / pop-up	**34%**
Primary discovery: Instagram	**47%**
Secondary discovery: Friend Referral	**27%**
Trust micro-influencers over celebrities	**61%**
Would switch brands for community fit	**48%**
Avg monthly spend, fitness nutrition	**INR 1,650**
Avg fitness events attended / month	**1.8**

EXHIBIT D — INDIA SPORTS & FITNESS ECONOMY

India sports nutrition market (2024)	**USD 610 Mn**
Market growth rate (YoY)	**~18%**
Organised fitness users, India	**~7.5 Mn**
Pickleball courts, Delhi NCR	**180+ (from 80 in 2023)**
Avg monthly spend, urban fitness user	**INR 2,800-4,200**
Urban Indians (18-30) following fitness creators	**~62 Mn**
D2C nutrition repeat purchase, industry	**35-40%**

EXHIBIT E — INDICATIVE MARKETING COSTS (URBAN INDIA)

Community pickleball social (50-100 pax)	**INR 2.5L-4L**
Pickleball tournament sponsorship	**INR 5L-8L**
Micro-influencer campaign (10 creators)	**INR 8L-12L**
Campus activation (single college)	**INR 80K-1.5L**
Gym sampling programme (20 gyms, 1 month)	**INR 3L-5L**
Quick-commerce sponsored listing (1 month)	**INR 1.5L-3L**
Outdoor hoarding, metro city (1 month)	**INR 4L-7L**

EXHIBIT C — COMPETITIVE NOTE: Rush archetype = Everyday Active · Community presence = Very Low · Key vulnerability = No offline + awareness ceiling · Nearest threat = International Premium + Influencer-led D2C
